

AMG-2570

Series

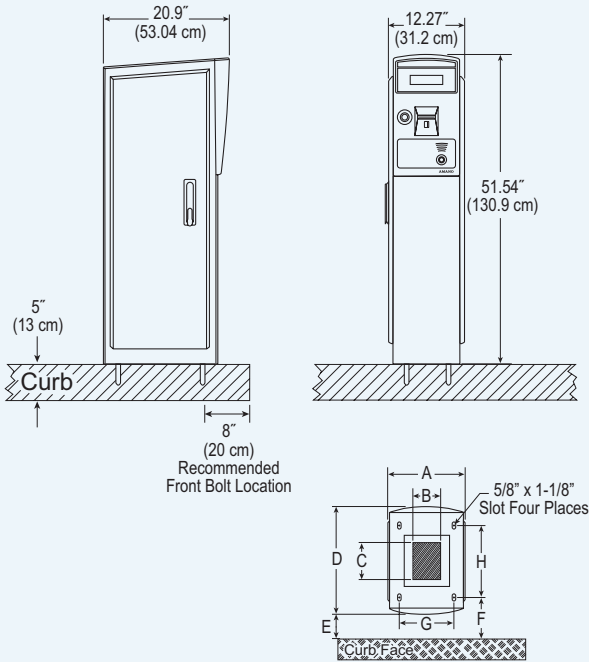

Entry Station

The AMG-2570 Series Entry Station is designed for multiple uses, typically at the unattended entrances of a parking facility. The AMG-2570 adds access cards and credit card functionality such as ticket in/credit card out, and credit card in/credit card out when used with an AMG-4570 Series Exit Station. Integration with the optional proximity reader adds the ability to accept contract and monthly parker pass cards for entry.
